Local Designer, Ms Ploy Chariyaves Champions the Unique Design and Concept of Rest Detail Hotel Hua Hin

Owners, Boonkongchuen Land Co. Ltd. entrusted Ms Ploy Chariyaves to come up with the unique concept for its charming Rest Detail Hotel in Hua Hin. Ploy is a renowned columnist and travel guru. Her travel pocket books are popular and highly acclaimed. Her Urbanista Concept Design Company initiated the concept of Devarana Spa.

Ploy has delivered a hotel concept of a hotel where every detail, no matter how small, really matters. “I chose the playful three wise monkeys logo and concept because I was familiar with them since I was a child. They are a symbol of living a wise life, closing ourselves out from the noise of the busy world to relax and take time out”.

“It’s not another chic or boutique hotel. We are a “detail” hotel and I incorporated every detail as a result of my traveling experiences into the hotel’s concept, based on my personal experience and those of family, friends and colleagues who gave invaluable input.

The design is very spacious, open and airy, in keeping with the tropical seaside colors, lots of white, with interesting splashes of color, unique tile mosaics, stunning chandeliers, waterfall features and outdoor Jacuzzis or pools in the villas, double daybeds built out over the swimming pool in the Pool Village, and individual letterboxes for each room or villa and the incorporation of the three wise monkeys throughout the hotel. Playful, colorful and interesting details delight the guest and make this a very unique experience.

The hardest part of staying at this beautiful hotel is leaving; although that could explain why the hotel enjoys a high number of return guests.
